FROM: Dennis Howell
RE: Letter of Reference
DATE: May 17, 2005

Mr. Dunigan:

Please accept this letter of reference and my personal thanks for a job well done at the Normal Parkway Homes Project that I had the pleasure to work with your organization on over the last year. As you know, this project had a very rigorous schedule that your crew kept up with and was able to meet all of our delivery dates to the owner. In my many years experience in project management, I found Dunigan Construction Company to be one of the best masonry subcontractors I have worked with. In our business, promptness, reliability, and craftsmanship are all qualities a general contractor seeks in a subcontractor. In the construction of the Normal Parkway Homes Project, Dunigan Construction Company demonstrated all of the above attributes.

I would welcome the opportunity to work with your company again due to both the professionalism of your office staff and the high standard of workmanship displayed by your field crew. Powers and Sons would definitely recommend Dunigan Masonry to any general contractor looking to work with an efficient masonry subcontractor that gets the job right the first time. I would be more than happy to talk to any contractors that would like to know more about my fine impression of your firm. Please feel free to call me at (219) 949-3100 if you need any additional assistance. Thank you.

Sincerely,

Dennis Howell
Project Manager
Powers & Sons Construction Company
